

# CHANGE YOUR BATTERY WHEN YOU CHANGE YOUR CLOCK.

## A = B

IF **BATTERY A** LASTS AS LONG AS **BATTERY B** AND COSTS LESS, WHAT COLOR DOES THE LABEL HAVE TO BE?

**(Hint: It doesn't matter)** October is National Fire Prevention Awareness Month. When you change your clock this Fall, remember to change the battery in your smoke detectors with dependable **Power XP2®** alkaline batteries.

# POWERXP2 DELIVERS.

Buy batteries for what's in them, not what's on them.
